RISE Education Announces Fourth Quarter and Full Year 2019 Unaudited Financial Results

BEIJING, March 12, 2020 – RISE Education Cayman Ltd ("RISE" or the "Company") (NASDAQ: REDU), a leading junior English Language Training ("ELT") provider in China, today announced its unaudited financial results for the fourth quarter and full year ended December 31, 2019.

Fourth Quarter 2019 Operational and Financial Highlights

- Total revenues increased by 17.5% year-over-year to RMB416.2 million (US\$59.8 million) in the fourth quarter of 2019.
- Net income attributable to RISE increased by 62.3% year-over-year to RMB51.1 million (US\$7.3 million) in the fourth quarter of 2019.
- Non-GAAP net income attributable to RISE¹ increased by 38.2% year-over-year to RMB66.1 million (US\$9.5 million) in the fourth quarter of 2019.
- Adjusted EBITDA¹ was RMB91.0 million (US\$13.1 million) in the fourth quarter of 2019, almost the same when compared to the same period last year.
- Starting the fourth quarter of 2019, the Company will begin reporting the number of students in class² and new students enrolled³ on a quarterly basis, which the Company believes more accurately reflects its business performance and provides a more meaningful comparative analysis than the previously reported student enrollment metric, which included new student enrollments and renewed student enrollments. Renewed student enrollments can be highly impacted by the Company's promotional activities. The increase in course prices on January 1, 2019 incentivized existing students to renew their courses far in advance of their scheduled graduation dates, making the student enrollment metric exceptionally high in the fourth quarter of 2018 and less indicative of the Company's business performance on a year-over-year basis. In addition, the adoption of the three-month tuition collection policy in certain cities in December 2018 also significantly impacted the number of renewed student enrollments, which made them less comparable on a year-over-year basis than the number of new students enrolled, who are newly acquired and have signed up for Rise courses.
- Students in class for Rise regular courses (including Rise Start and Rise On programs) were 54,383 as of December 31, 2019, an increase of 10.2% from 49,365 as of December 31, 2018. Approximately 58.5% of these students were in cities where the collection of standard tuition fees have been split into three to four installments since December 2018.
- New students enrolled for Rise regular courses in the fourth quarter of 2019 were 6,200, compared with 6,536 during the same period last year. Approximately 63.0% were in the cities where the collection of standard tuition fees have been split into three to four installments since December 2018. New students enrolled for other Rise courses (including online, short-term, SSAT test-prep courses and courses provided by the Edge Learning Centers ("The Edge")) were 1,086 in the fourth quarter of 2019, compared with 1,598 during the same period last year. The total number of the Company's learning centers increased to 472, consisting of 89 self-owned (including 2 operated by The Edge) and 383 franchised learning centers.
- Student retention rate at self-owned learning centers was 69% in the fourth quarter of 2019 compared with 71% for the same period of the prior year.

Full Year 2019 Operational and Financial Highlights

- Total revenues increased by 20.3% year-over-year to RMB 1,529.4 million (US\$219.7 million) in full year 2019.
- Net income attributable to RISE increased by 3.6% year-over-year to RMB148.1 million (US\$21.3 million) in full year 2019.
- Non-GAAP net income attributable to RISE excludes share-based compensation ("SBC") expenses and amortization of certain intangible assets, including teaching course license, trademark, student base and franchise agreements, acquired as part of the junior English Language Training ("ELT") business by the Company from certain third-party in 2013 (the "2013 acquisition"), from net income attributable to RISE. EBITDA represents net income before interest, taxes, depreciation and amortization. Adjusted EBITDA excludes SBC expenses from EBITDA. For details on the calculation of these and the reconciliation of each to the most directly comparable GAAP financial measure, see "About Non-GAAP Financial Measures" and "Reconciliation of GAAP and Non-GAAP Results."

- New students enrolled for Rise regular courses increased by 12.3% year-over-year to 29,049 in full year 2019 from 25,862 in full year 2018. Approximately 59.4% were in the cities where the collection of standard tuition fees have been split into three to four installments since December 2018. New students enrolled for other Rise courses were 6,781 in full year 2019, compared with 10,877 in full year 2018.

Ms. Lihong Wang, Chairwoman and Chief Executive Officer of RISE commented, "I am very excited to join RISE which has built a solid reputation as a leader in a large and fast-growing market. Throughout 2019, we continued to see strong demand for afterschool English tutoring services in China. Leveraging our strong brand recognition and exceptional execution capabilities, our top line grew by 20.3% in 2019. New students enrolled for Rise regular courses increased by 12.3% for the year while students in class for Rise regular courses increased by 10.2% as of December 31, 2019 when compared with last year."

"While we generated solid financial results for the year, we also experienced higher refund rates and lower-than-expected rollover rates, reflecting the impact of the three-month tuition collection policy implemented in certain cities. As a result, students in class and new students enrolled for Rise regular courses fell short of their target for the year despite a strong pipeline of prospective students."

"On my first day as CEO, I launched *Project Pioneer* to address the operational issues caused by the change in tuition collection policy. *Project Pioneer* is a tailor-made initiative to drive growth in new students enrolled by fixing the issues that were impacting refund, rollover and conversion rates. I am fully confident that the successful execution of this project will improve our operations overall and re-accelerate top line growth in 2020. *Project Pioneer* was also designed to fit directly into the long-term strategy I have developed which will facilitate Rise's transition into a digitalized, cross-disciplinary skill-based education platform."

"Unfortunately, the outbreak of COVID-19 adversely impacted everyone and everything. Since January 21, 2020, all our learning centers have been temporarily closed, resulting in a significant disruption to our operations. The disruption to our business has compelled us to accelerate the execution of our strategy to digitalize our operations and conduct all aspects of our business online, including marketing, teaching, training and communications with parents and students.

"We are pleased to report a significant milestone with the official launch of online small group classes for our existing and new students earlier this month. The accelerated development of our online small group classes was a direct result of the dedication and perseverance of our highly-skilled teams who worked tirelessly to build out the product and platform in record time to accommodate the challenging operating environment. Our academic team developed more than 400 online courses for both online small group classes and digital marketing purposes in less than 30 days. At the same time, our IT team transformed Rise+ into a nation-wide open educational technology platform for existing and prospective students within 20 days. Rise+ now incorporates Online-Merge-Offline ("OMO") and live broadcast technologies to support the delivery of online small group classes. I believe this is a clear demonstration of our strong execution capabilities, deep experience in developing educational courses, and commitment to driving this long-term transition."

"We began offering two-week free online small group classes to all students in February 2020 and began monetizing them in early March. As of March 11, approximately 116,000 students from our self-owned and franchised learning centers in 136 cities across China have been learning via our online small group classes. We believe the online small group classes offer a unique value proposition to students and parents as a supplement to our core offline curriculum."

"Despite the challenges brought by the outbreak of COVID-19, we remain confident in the fundamental health of our business today and our ability to implement the strategic initiatives to achieve our long-term objectives. We are accelerating the digitalization of our operations to help us solidify our market leading position and increase market penetration over the long run. The education market in China continues to present enormous growth opportunities for companies with strong branding, high-quality curricula and teaching resources, and the ability to offer both online and offline learning experiences. I firmly believe that our ability to build an effective OMO model will ensure long-term growth and success for RISE."

Ms. Jiandong Lu, Chief Operating Officer and Chief Financial Officer of RISE, added, "Total revenue for the quarter reached RMB416.2 million, an increase of 17.5% when compared with the same period of 2018. Our operating profit reached RMB60.7 million, flat when compared with the same period of 2018. Our operating margin dropped 230 basis points to 14.6% when compared to the same period of 2018 as a result of an increase in teacher salaries and investment in expanding marketing channels. Adjusted EBITDA hit approximately RMB91.0 million for the quarter, essentially flat when compared to the same period of 2018. Full year adjusted EBITDA was RMB349.3 million, an increase of 16.4% over 2018. Adjusted EBITDA margin for 2019 was 22.8%, a drop of 80 basis points from 2018 primarily due to increases in teacher salaries and investment in sales and marketing."

Financial Results for the Fourth Quarter of 2019

Revenues

Total revenues for the fourth quarter of 2019 increased by RMB62.1 million, or 17.5%, to RMB416.2 million (US\$59.8 million) from RMB354.2 million in the same period of the prior year. This increase was primarily attributable to an increase of RMB55.8 million in revenues from educational programs.

• Revenues from educational programs for the fourth quarter of 2019 increased by 17.2% to RMB379.9 million (US\$54.6 million). The increase in revenues from educational programs was primarily due to (i) a significant increase in the number of students in class for the Company's regular courses operated by self-owned learning centers and (ii) price increases for the Company's regular courses starting at the beginning of the year. The number of the Company's self-owned learning centers increased to 89 as of December 31, 2019 from 76 as of December 31, 2018. The Company added 213 classrooms as of December 31, 2019 when compared with December 31, 2018.

- Franchise revenues for the fourth quarter of 2019 increased by 17.2% to RMB33.2 million (US\$4.8 million), primarily due to an increase in recurring franchise fees associated with an increase in the number of franchised learning centers from 304 as of December 31, 2018 to 383 as of December 31, 2019.
- Other revenues for the fourth quarter of 2019 increased by 78.5% year-over-year to RMB3.2 million (US\$0.5 million).

Cost of Revenues

Cost of revenues for the fourth quarter of 2019 increased by RMB33.3 million, or 22.1%, to RMB183.6 million (US\$26.4 million). The increase was primarily due to increased personnel costs associated with increases in teacher headcount, total teaching hours and teachers' compensation at the Company's self-owned learning centers and an increase in rental costs associated with the expansion of the Company's operations. Non-GAAP cost of revenues for the fourth quarter of 2019 increased by 22.8% to RMB179.9 million (US\$25.8 million).

Gross Profit

Gross profit for the fourth quarter of 2019 increased by RMB28.8 million, or 14.1%, to RMB232.6 million (US\$33.4 million). Gross margin decreased to 55.9% during the fourth quarter of 2019 from 57.6% during the same period of last year.

- Selling and marketing expenses increased by 26.2% year-over-year to RMB87.7 million (US\$12.6 million) for the fourth quarter of 2019, compared with RMB69.5 million for the fourth quarter of 2018. The increase was primarily due to increases in marketing channel expenses, headcount, and incentive-based salary raises for the Company's marketing staff. Non-GAAP selling and marketing expenses during the fourth quarter of 2019 increased by 31.5% year-over-year to RMB86.6 million (US\$12.4 million).

The decrease was primarily due to a change in the tuition collection schedule as a result of government restrictions on tuition collection schedule implemented in certain cities. Deferred revenue and customer advances mainly consisted of upfront tuition fee payments from students and initial franchise fees from the Company's franchise partners.

Financial Results for Full Year 2019

 beginning of the year.
- Franchise revenues for the full year of 2019 increased by 24.9% to RMB156.5 million (US\$22.5 million), primarily due to an increase in initial franchise fees and recurring franchise fees associated with an increase in the number of franchised learning centers from 304 as of December 31, 2018 to 383 as of December 31, 2019.

Charitable Causes Associated with the Coronavirus Outbreak in China

RISE is committed to maintaining the highest standards of corporate social responsibility. To show its support to front-line medical professionals battling the outbreak of COVID-19, RISE donated RMB1 million on January 28, 2020 which was used to support the containment of the outbreak, including the construction of a temporary hospital in Wuhan.

Business Outlook

In accordance with government regulations to contain the outbreak of COVID-19, RISE's learning centers were temporarily closed throughout the majority of the first quarter of 2020, which will adversely impact the Company's financial performance. The Company immediately took measures to effectively move its offline classes to online small group classes through Rise+ and began monetizing them in early March 2020. However, the Company expects revenue generated from online small group classes will be immaterial during the first quarter of 2020. With no set timetable for the lifting of government regulations on the temporary closure of learning centers, the Company expects the first quarter 2020 revenue to be in the range of RMB95 million and RMB100 million.

About Non-GAAP Financial Measures

To supplement RISE's financial results presented in accordance with U.S. GAAP, the Company uses non-GAAP financial measures, which are adjusted from results based on U.S. GAAP. Reconciliations of non-GAAP financial measures to U.S. GAAP financial measures are set forth in table at the end of this earnings release titled "Reconciliation of GAAP and Non-GAAP Results," which provides more details on the non-GAAP financial measures.

Non-GAAP cost of revenues, non-GAAP operating expenses, including non-GAAP selling and marketing expenses and non-GAAP general and administrative expenses, provides the Company with an understanding of the results from the primary operations of the Company's business by excluding the effects of certain transaction-related expenses that do not reflect the ordinary operating expenses of the Company's operations and share-based compensation.

EBITDA, adjusted EBITDA margin and non-GAAP net income provide the Company with an understanding of the results from the primary operations of the Company's business by excluding the effects of certain transaction-related expenses that do not reflect the ordinary EBITDA and net income of the Company's operations.

The Company uses non-GAAP operating expenses, including non-GAAP selling and marketing expenses and non-GAAP general and administrative expenses, non-GAAP operating income, Non-GAAP operating margin, EBITDA, adjusted EBITDA, adjusted EBITDA margin, non-GAAP net income attributable to RISE, and non-GAAP basic and diluted net income per ADS attributable to RISE to evaluate the Company's period-over-period operating performance because the Company's management believes these provide a more comparable measure of the Company's continuing business as it adjusts for transaction-related expenses that are not reflective of the normal earnings of the Company's business. These measures may be useful to an investor in evaluating the underlying operating performance of the Company's business, and to enhance investors' overall understanding of the historical and current financial performance of the Company's continuing operations and prospects for the future.

Non-GAAP financial information should not be considered a substitute for or superior to U.S. GAAP results. In addition, calculations of this non-GAAP financial information may be different from calculations used by other companies, and therefore comparability may be limited.

Non-GAAP cost of revenues exclude relevant share-based compensation expenses and amortization of certain intangible assets ("IA") acquired as part of the 2013 acquisition from cost of revenues. Non-GAAP operating income adds back share-based compensation expenses and amortization of certain intangible assets acquired as part of the 2013 acquisition. Each of non-GAAP operating expenses, non-GAAP selling and marketing expenses or non-GAAP general and administrative expenses excludes relevant share-based compensation expenses and amortization of certain intangible assets acquired as part of the 2013 acquisition. EBITDA represents net income before interests, taxes, depreciation and amortization.

For more information on non-GAAP financial measures, please see the tables captioned "Reconciliations of non-GAAP financial measures to the nearest comparable GAAP measures."
